

When it comes to design, Africa is sustainable. It will always bring passion and warmth to a place. It will always bring the joy of the handcrafted, the colourful, the natural. It will always inspire.

Africanismo celebrates the creativity and ingenious resourcefulness borne out of a continent that is both beautiful and harsh. It embraces the spirit and soulfulness of all who live in southern Africa and the inspiration they provide one another daily.

And it rejoices in the extraordinary places that people call home – even if, as in the case of safari lodges, it's for just a few nights. In southern Africa, there is a wonderful mix of cultural influences. The result is dwellings that are individual, distinctive and charismatic.
